

Contents

A Multivariate Latent Random Effect Model for Mixed Continuous and Ordinal Longitudinal Responses with Missing Responses E. Bahrami Samani, M. Ganjali and H. Zahed	357
Comparison of Association Components for Two Independent Contingency Tables with the Same Ordinal Categorical Variables S. K. Ghoreishi and M. R. Meshkani	379
Record Values of the Ratio of Two Independent Exponential Random Variables M. Ahsanullah and M. Shakil	393
Robust M-Estimation of Number of Signals M. Bhandary	407
The Generalized Gamma Geometric Distribution E. M. M. Ortega, G. M. Cordeiro and M. A. R. Pascoa	433
On A Class of Distributions Generated by Stochastic Mixture of the Extreme Order Statistics of A Sample of Size Two S. M. Mirhoseini, A. Dolati, and M. Amini	455
On Characterizations of Exponentiated Family of Distributions Based on Generalized Order Statistics M. A. W. Mahmoud, and M. G. M. Ghazal	469
On Dynamic Renyi Cumulative Residual Entropy Measure V. Kumar, H. C. Taneja and R. Srivastava	491
A Class Coupler for Perfect Sampling from Continuous Distributions With and Without Atoms W. Mao, and J. N. Corcoran	501
A Multivariate Generalized Poisson Distribution F. Famoye, R. Okafor, and M. O. Adamu	519
A Note on Independence of Quadratic Forms H. Farhadi and M. Ghahramani	533
