

Contents

Distribution of Future Location Vector and Residual Sum of Squares for Multivariate Location-Scale Model with Spherically Contoured Errors Shahjahan Khan and Enamul Kabir	91
Entropy and Information Properties of Record Values from a Weibull Distribution M. Shakil	105
Fuzzy Coefficient Autoregressive (FCA) Stationary Time Series Models S. S. Appadoo and A. Thavaneswaran	127
Bayesian Prediction for the Log-Normal Model under Type II Censoring Hafiz M. R. Khan, M. Safiul Haq and Serge B. Provost	141
Optimal Designs and Their Projection Properties with Grobner Bases H. Evangelaras and C. Koukouvinos	161
Mixture Model for the Pharmacokinetic Parameter, Maximum Drug Concentration (C_{\max}) in Small Samples Lakshminarayan Rajaram and Chris P. Tsokos	175
Asymptotic Distribution of Cramer-von Mises Statistics for ARCH Processes S. Ajay Chandra, Dinesh K. Rao and Sangyeol Lee	201
