FOREWORD Bimal K. Sinha, Guest Editor	342
Judgement Post-stratification with Multiple Rankers Lynne Stokes, Xinlei Wang and Min Chen	344
Distribution-Free Two-Sample Inference in Ranked-Set Samples Omer Ozturk	360
Modification of Bivariate Ranked Set Sampling Using Deep Stratification Mohhamad Fraiwan Al-Saleh and Jamal Ender	388
Monitoring the Process Mean and Variance Using Ranked Set Sampling and Its Modifications Mu'azu R. Abujiya and Hassen A. Muttlak	408
How Many Does it Pay to Rank? Linear and Quadratic Cost Models to Estimate a Population Mean Rebecca A. Buchanan and Loveday L. Conquest	424
A Cost-Effective Modification of the Ranked Set Sampling Method for Destructive Experiments Karabi Sinha	448
Multistage Extreme Ranked Set Sampling for Estimating the Population Mean Abdul Aziz Jemain, Amer Al-Omari and Kamarulzaman Ibrahim	456
Estimation of Parameters of Exponential Distribution Using Generalized Ranked-Set Sampling A. Adatia and A.K.Md. Ehsanes Saleh	472
