

Contents

Analysis and Multiple Comparison of Treatments of an Extended Randomized Block Design with Correlated Error Rabindra Nath Das and Sung H. Park	245
Characterization from Exponentiated Gamma Distribution Based on Record Values A. I. Shawky and R. A. Bakoban	263
Goodness of Fit Tests for the Two Parameter Weibull Distribution Ezz H. Abdelfattah	279
A New Biased Estimator for the Restricted Linear Regression Model M.I. Alheety, S.D. Gore and B.M. Golam Kibria	293
Some Aspects of Stochastic Modeling of Dyadic Relations in Social Networks: Theory and Applications Pharita Em-ot, Montip Tiensuwan1, and Bikas K. Sinha	303
A Moment Inequality for Exponential Better than Used in Averageon Specific Interval Class of Life Distribution with Hypothesis Testing Application E.A.Rady, M.I.Hendi, E.F.Lashin and F.A.Abass	323
A Latent Variable Model for Mixed Continuous and Ordinal Responses E. Bahrami Samani, M. Ganjali and A. Khodadadi	337
Generalized Confidence Interval for the Common Coefficient of Variation J. Behboodian and A. A. Jafari	349
