

Contents

Multiple and Partial Association Components: Asymptotic Distribution and Application S. K. Ghoreishi and M. R. Meshkani	245
Non-Parametric Test of $NBUE_{m_{gf}}$ Class of Life Distributions L.S.Diab	253
Regression Analysis for Correlated Data under Compound Symmetry Structure J. Kim, R. N. Das, A. SenGupta and J. C. Paul	269
A Permutation Test for Effects in Unreplicated Factorial Designs based on Inequivalent Hadamard Matrices C. Koukouvinos, K. Mylona and A. Skountzou	283
On the Distribution of Bivariate Concomitants for the Pseudo-Inverse Rayleigh Distribution and a Characterization M. Ahmad, M. Ahsanullah, M. Mohsin, M. Q. Shahbaz and S. Shahbaz	299
Factorial Change over Designs for Two Non-Integrating Factors C. Varghese, L. Dwivedi and S. Jaggi	311
Calculating Average Power for the Benjamini-Hochberg Procedure W. J. Feser, T. E. Fingerlin, M. J. Strand and D. H. Glueck	325
On Characterization of Continuous Distributions Conditioned on a Pair of non-Adjacent Generalized Order Statistics M.Ahsanullah, M.J.S. Khan and A.H. Khan	353
Confidence Intervals for Quantiles Using Record Values from the Generalized Exponential Distribution A. Baklizi	373
Recurrence Relations for Single and Product Moments of Generalized Order Statistics from Linear-Exponential and Burr Distributions J. Saran and A. Pandey	383
