

Contents

On A Dependence between Random Variables in an ε -neighborhood of a Particular Point I. Bairamov and B. Ucer	392
Decomposition of Diagonals-Parameter Symmetry Model and Orthogonality of its Test Statistic for Square Contingency Tables with Ordered Categories K. Tahata and S. Tomizawa	406
Characterization of Probability Distributions through Expectation of Function of Generalized Order Statistics Z. Haque, H. Athar and R.U. Khan	416
Bayesian Estimation of Parameters in Bivariate Exponential Regression Models K. A. Ahmadi and D. D. Hanagal	428
A Black-Scholes Model with Fuzzy Volatility A. Thavaneswaran and G. K. Jha	448
Non-Central Transformed Chi-Square Mixture of Gamma Distributions G. Waheed and M. Ahmad	464
The Bi-log-logistic Model – A Comparison Study of Some Approximate Confidence Interval Procedures F. Louzada-Neto, G. C. Perdoná and C. G. Carrasco	478
Failure Rate of the Mixture of Two Skew Normal Variables P. L. Gupta and R. C. Gupta	494
A Random Demand Random Lead Time Stochastic Inventory System with Time-dependent Prices S. Roychowdhury	506
