<u>Theory for the Simplest Case of ICA</u>	
L. T. Kien	539
<u>Comparison of Wald, Score, and Likelihood Ratio Tests for Response Adaptive Designs</u>	
Y. Yi and X. Wang	553
<u>On Some Properties of Stochastic Conditional Duration Models</u>	
A. Thavaneswarana and M. Ghahramani	571
<u>Characterizations of Weibull Geometric Distribution</u>	
G. G. Hamedani and M. Ahsanullah	581
<u>Bayesian Estimation Based on Dual Generalized Order Statistics from the Exponentiated Weibull Model</u>	
Z. F. Jaheen and M. M. Al Harbi	591
<u>A New Test of Fit for the Structural Form of a Distribution Based on the Empirical Characteristic Function</u>	
M. Towhidi and M. Salmanpour	603
<u>Classical Estimation of Mixed Rayleigh Distribution in Type I Progressive Censored</u>	
W. M. Afify	619
<u>Bayesian Evaluation of Biomarkers as Surrogate Endpoints and its Application in Long-Term Effects of Skin Lesions Due to Mustard Gas</u>	
S. Jalaie, S. Faghihzadeh, F. Eskandari, T. Ghazanfari and M. R. Meshkani	633
<u>Separate Ratio-Product Estimator for Estimating Population Mean Using Auxiliary Information</u>	
G. K. Vishwakarma and H. P. Singh	653
