

Contents

A Comparison of Multiplicative and Additive Optional RRT Models Sat Gupta, Bill Thornton, Javid Shabbir and Sunil Singhal	226
Generalized Inference for the Common Mean of Several Lognormal Populations J. Behboodian and A. A. Jafari	240
Improved Estimation of Volatility with Applications M. Ghahramani and A. Thavaneswaran	260
Nonparametric Test for Harmonic Used Better than Aged in Expectation (HUBAE) Class of Life Distributions S. E. Abu-Youssef and I. I. Elbatal	272
Play Against the Random Past for Matching Binary Bits Dennis Gilliland and Inha Jung	282
Test for Generalized Variance in Signal Processing when the Errors are Equicorrelated Madhusudan Bhandary	292
Maximum Likelihood Estimation of A Finite Population Size Md. Mesbahul Alam, A.H.M. Rahmatullah Imon and Bikas K Sinha	306
Likelihood Based Interval Estimations for the Logistic Model with Censored Data K. Thiagarajah	316
