

Contents

Near-Saturated Projection Designs from Hadamard Matrices P. Angelopoulos, C. Koukouvinos and R. Mee	141
Small-Sample Performance of Estimators and Tests in Logistic Regression with Skew-Normally Distributed Explanatory Variables M. A. Matin and S. C. Bagui	151
Estimation of Parameters of a Power Function Distribution by Lower Generalized Order Statistics Alfred K. Mbah and M. Ahsanullah	169
Instantaneous and Early Failures Analysis in Pareto Type Distributions K. Muralidharan and Arti Khabia	187
An Algorithm for Solving a Transshipment Problem with Random Demands & Inadmissible Routes S.N. Gupta and Shakeel Javaid	205
Interdependent Queueing Model with Start Up Delay Srinivasa Rao, K., Suresh Varma, P. and Srinivas, Y.	219
Asymptotic Maximum Likelihood and Bayesian Analysis of Shares of Various Weighted Trends in Association Models in Contingency Tables S. K. Ghoreishi and M. R. Meshkani	229
