

Contents

On the Canonical Density of the Half-Cauchy Distribution H. Volkmer	325
A Note on Combining Estimates for Some Time Series with Applications Y. Liang and A. Thavaneswaran	337
Large Sample Confidence Intervals for Extreme Quantiles X. Wang	349
On Moment Generating Function of Generalized Order Statistics from Gompertz Distribution and its Characterization R.U. Khan, B. Zia and H. Athar	363
Characterization of Probability Distributions by Conditional Variance of Generalized Order Statistics and Dual Generalized Order Statistics A.H. Khan, M. Faizan and Z. Haque	375
Sufficiency in Linear and Quadratic Regression Models M. Tiensuwan, A. R. Dhungana and B. K. Sinha	387
Some Bayes Estimators for the Repairable System G. Prakash	405
An AR(1) Time Series Model with Skew Laplace III Marginals K. K. Jose, Lishamol Tomy, V. Jilesh and K. Jayakumar	417
On the Bayes Estimators of the Parameters of Zero-Inflated Modified Power Series Distribution P. B. Ahmad and A. Hassan	427
Generalized Regression-in Regression Estimators for Two-Phase Sampling Using Multi-Auxiliary Variables Z. Ahmad, M. Hanif and M. Ahmad	443
On Testing Equality of Several Normal Means S. Tongchai, G. Knapp, B. K. Sinha and S. Wattanachayakul	459
