Comments About the Labs
Hand this in on the day of the final for 5 points.

1. How much programming experience did you have coming into this class?

2. In general, did the labs help you understand the material?

3. Specifically, which labs were confusing or not helpful.

4. Are the labs "too wordy" – i.e. should there be less explanation and more emphasis on programming.

5. What suggestions do you have for improving the labs?

6. What suggestions do you have for improving the class lectures.
